## Message from Converus President and CEO

### Recent Training Shows EyeDetect Gains Global Momentum

Hi,

This month we conducted virtual EyeDetect training sessions in English and Spanish with attendees from 40 countries. EyeDetect continues to gain momentum in organizations worldwide.

These virtual, 3-day training sessions, offered free of charge, feature 6 to 7 training modules daily. Modules include: Test Proctor, Dashboard Administrator, EyeDetect Manager, Physio Tracker, Advanced Topics, Test Writing, a review of today's lie detectors, and EyeDetect research.

There are now 8 potential certifications available: Test Proctor, Test Proctor+, Administrator, MCT & RCT Test Writer, Hybrid MCT Test Writer, Audio MCT Test Writer, DLC2 & Hybrid DLC Test Writer, and Investigative Interviewer.

Training also helps educate attendees about new ways to use EyeDetect. Those using it for pre-employment screening learned about testing for investigations, and vice-versa.

Said one attendee: "EyeDetect is very important to me as a polygraph examiner and attorney. The training was timely and critical." Another added, "The information provided is excellent."

Our next EyeDetect training session will be March 1-3, 2022

#### New Service Partner

A warm welcome to our new Converus Service Partner Assess Ltd., located in Bulgaria.

We continue to attract the best of the best in the credibility assessment industry. (Want to become a Converus Service Partner? Click [here](#).)

Click your email "forward" button to send this email to others interested in credibility assessment. And please share industry news with us! We'd love to hear from you. Email: [info@converus.com](mailto:info@converus.com).

## About Converus

Converus provides scientifically validated credibility assessment technologies. EyeDetect®, which detects deception by measuring involuntary eye behavior, is a fast, accurate, affordable, noncontact, scalable, and fully automated option to polygraph. EyeDetect+ is the world's first automated polygraph, making the testing process by monitoring, accurate, and less intrusive (than a traditional polygraph). It assesses credibility by monitoring and recording ocular activity plus physiological activity similar to a traditional polygraph. Customers worldwide use the EyeDetect product line for screening and investigations to help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: [converus.com](http://converus.com)
